

14 October 2025

**Neo Energy Metals plc
('Neo Energy' or 'the Company')**

Update on Investor Presentation

Neo Energy, the near-term, low-cost uranium developer, wishes to advise the public that the Investor Presentation previously announced on 3 September 2025 has been rescheduled to Wednesday, 22 October 2025 at 7:00 p.m. GMT.

This update follows increased investor interest and is intended to allow all shareholders and interested parties the opportunity to participate. To accommodate this broader engagement, the presentation will now be conducted live and online, in partnership with StockBox Media.

An update will be provided by Mr Theo Botoulas, Chief Executive Officer and Mr Jason Brewer, Chairman on the Company's recent developments and outlook, followed by a Q&A session. The Company invites all shareholders and interested parties to join and engage directly.

Further details, including access information, will be provided in due course and will be available across our online platforms.

The Board extends its appreciation to shareholders for their continued patience and support.

ENDS

About NEO Energy Metals Plc

Neo Energy Metals plc is a uranium developer and mining company listed on the main market of the London Stock Exchange (LSE: NEO).

The Company and its South African subsidiaries, namely Neo Uranium Resources Beisa Mine (Pty) Limited and Neo Uranium Resources South Africa (Pty) Ltd, have continued to strengthen the uranium portfolio through conditional agreements for the acquisitions of 100% interest in the Beisa North and Beisa South Uranium and Gold Projects and 100% interest in the Beatrix 4 mine and shaft complex, the processing plant complex and associated infrastructure in the Witwatersrand Basin, located in the Free State Province of South Africa. The combined projects' total SAMREC Code compliant resource base comprises 117 million pounds of U₃O₈ and over 5 million ounces of gold.

Additionally, the Company holds up to a 70% stake in the Henkries Uranium Project, an advanced, low-cost mine located in South Africa's Northern Cape Province and a 100% interest in the Henkries South Uranium Project, extending the Henkries Project's strike length by 10km to a total of 46km of shallow paleo-channels proven to host uranium mineralisation through extensive drilling and feasibility studies backed by US\$30 million in historic exploration and development expenditure.

The Company is led by a proven board and management team with experience in uranium and mineral project development in Southern Africa. Neo Energy's strategy focuses on an accelerated development and production

approach to generate cash flow from Henkries while planning for long-term exploration and portfolio growth in the highly prospective uranium district of Africa.

The Company's shares are also listed on the A2X Markets (A2X: NEO), an independent South African stock exchange, to expand its investor base and facilitate strategic acquisitions of uranium projects, particularly within South Africa.
